Containers - Gallery Plus

Gallery Plus is an evolution of our standard Gallery shipping container. Using a High Cube Shipping Container, this 20' unit is the best-in-class exhibition stand of its kind. The 20' shipping container is built to a high standard and has a flexible white finish that gives it a truly premium look. This event structure is the perfect environment to target, engage and sell to consumers using communication and experiential activities.

As with our standard Gallery shipping container, Gallery Plus opens to the front via a sophisticated roller door system that enables the provision of a 20' (6m) access entrance to the internal environment. The environment is then extended to the exterior through a solid ramp with anti-slip vinyl flooring that allows for disabled access to the experiential zone.

The interior walls are paint finished in white on the original architectural corrugation finish. The

back wall contains 3 off graphic positions (each 1500mm \varnothing), and the bulkhead wall features 1 off graphic position (1500mm \varnothing). Alternatively, we have a stud wall system that enables us to use graphics throughout the container to build a bespoke branding presence.

The Gallery Plus event container has an external 32amp mains input that can be powered from an onsite mains power connection or generator input. Internally, the container has a fuse box and internal power distribution to 8 off 16amp sockets.

CONTAINER FEATURES
