

The Events Structure Product Guide

Roadshow Trucks - Explorer

Explorer is a highly distinctive exhibition vehicle that provides an exceptional combination of high impact to consumers and exceptional operational flexibility. These exhibition units are exceptional when applied to mobile sampling campaigns for a broad cross section of brands.

These trailers are designed to provide operational flexibility to work in all busy urban environments.

At just 6.4 metres in length (with a 5.2m body) these vehicles are compact but have a hydraulic canopy that makes these an exceptional communication space.

VEHICLE FEATURES

- 1 hydraulically operated pods
