

The Events Structure Product Guide

Roadshow Trucks - Trekker

The Trekker range of vehicles are uniquely designed to provide mobile retail and communication environments for use in busy urban environments. At just over seven metres in length and with a rear pod, these vehicles have an exceptional communication space. The vehicles have built in power and air conditioning making this an entirely self-contained space. The vehicles have excellent security systems, as a consequence they can be deployed to a site and left securely for long periods.
